

Magnolia MONTESSORI ACADEMY
School Age Program

SUMMER CAMP 2022

Application DEADLINE IS

April 22nd

MAGNOLIA MONTESSORI ACADEMY SUMMER ENRICHMENT CAMP 2022

June 13-17

Nature Camp

Nature Camp provides quality science education in an outdoor, hands-on setting. Our teachers will provide fun experiences for the campers. Activities include identifying plants, insects, and outdoor creatures. Campers will spend most of their time outside, having a great time observing **nature** up close using tools like binoculars, and magnifying lenses.

June 21-24

Buggin' Out

Projects include all bug-related activities for the campers to participate in. Drawing, creating and finding bugs are just some of the activities on their agendas. The Day campers are really enjoying their Bugtastic week!

June 27- July 1

Goin' Green

We are going on a “get smART” adventure as we go Green this week! Campers get ready to reduce, reuse and recycle as we engage in various arts & crafts, using recycled items. We’ll learn about making a positive impact on our planet earth this week.

July 5-8

Artful Antics

Our goal is to provide campers with opportunities to build self-esteem through art and friendship. Students will work on collaborative and individual projects in disciplines such as painting, drawing, and ceramics. Our camp promises to make artists out of everyone!

July 11-15

Fun & Fitness

This fun Camp will give children a chance to learn different forms of fitness games from kid's boot camp with obstacle courses to yoga. These fun games are great way to help kids boost their heart rates and strengthen their coordination and balance.

July 18-22

Lego Week Camp

This week's camp will provide participants with an exciting way to learn and have fun through building **LEGO®** models. The **camp** experience provides children with a safe and comfortable environment to get excited about learning and meet new friends.

July 25-29

Science Week Camp

Science week a great way to spend time together away from screens and just generally work as a team to solve problems. If your children love science, I recommend trying this Science Camp this summer. We will, although maybe on a slightly smaller scale.

August 1-5

Shark Week Camp

At this week's Shark Camp, we will provide a fun, enriching and educational experience for kids. The best way to get kids (and adults) excited about science and our oceans is to hit the beach, get our hands dirty and explore. We have great crafts and hands-on activities related to sharks and ocean life.

August 8-12

Spirit Week Camp

This week at camp, we will have a different spirit theme each day followed by crafts, activities and field trips to make the week fun filled. This is a week that will explore our student's creative side.

August 15-19

Robot Week Camp

Robot week will be a great way for our students to have a great time building and discovering, while at the same time learning concepts in science, technology, language arts and engineering.

August 22-26

Wet N' Wild Week Camp

We will be ending summer camp with a bang. We will be taking our students to the water park, playing water games and activities. This week promises to be full of fun and laughter.

****Take 10% off any two or more family members!***
